Profile Summary

Motivated and adaptable IT professional with a Master's and Bachelor's degree in Computer Applications (MCA & BCA). Strong understanding of software development, data handling, and cybersecurity concepts. Quick learner with a passion for technology and problem-solving, seeking opportunities across software development, data analytics, and cybersecurity to grow and contribute to impactful solutions

Experience/IT Intern

Kiran Academy – Pune NOV-2024 | July 2025

- Assisting in real-time project development and understanding industry-level coding standards.
 - Gained hands-on experience with tools and technologies related to **[HTML, CSS, Java, SQL, etc]**
 - Participating in training modules focused on **software development, database handling, and IT support.**
 - Collaborating with trainers and peers on assignments to simulate workplace scenarios and build strong technical foundations.
-

Education

Master of Computer Applications (MCA) (CGPA 7.90),

GSMCOE Balewadi - Genba Sopanrao Moze College of Engineering, Savitribai Phule Pune University
Savitribai Phule Pune University, 2025

Bachelor of Computer Applications (BCA) (CGPA 8.48),

Modern College of Computer Studies, Savitribai Phule Pune University, 2023

Skills

- **Programming:** Java, C, Python
 - **Web Development:** HTML, CSS
 - **Database:** MySQL
 - **Cybersecurity:** Network Security Basics
 - **Machine Learning**
 - **Soft Skills:** Teamwork, Communication, Problem-Solving, Adaptability
-

Projects

Title: Intrusion Detection System using RNN (ML&DL)

Overview:

Developed a deep learning-based intrusion detection system to classify and detect malicious network activity. Utilized recurrent neural networks to train the NSL-KDD dataset, improving the accuracy of real-time intrusion prevention systems.

Title: Academic Portal using Java & SQL

Overview: Developed a robust Academic Portal to handle student records efficiently, faculty data, course registrations, and attendance tracking. Designed and implemented a relational database schema to ensure effective storage and retrieval of academic data. Integrated role-based access control to provide secure and structured access for different user roles, including Admin, Faculty, and Students. The system aimed to automate and simplify administrative tasks within educational institutions.

Certifications

- Cloud Computing Architecture 2.0 (Udemy)
- Full Stack Java Developer (Anudip Foundation)
