

Data Analyst with hands-on internship experience in analyzing, cleaning, and visualizing data to support decision-making. Skilled in SQL, Python (pandas, NumPy), Excel, and Power BI for building dashboards and reports. Experienced in data preprocessing, generating insights, and presenting results through effective visualizations. Familiar with version control tools like Git.

TECHNICAL SKILLS

Programming & Scripting: Python (pandas, NumPy, matplotlib, seaborn), SQL
Data Visualization Tools: Power BI, Excel (Pivot Tables, Charts, Power Query)
Databases: SQL Server, MySQL
Statistical & Analytical Skills: Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Business Intelligence Reporting
Version Control: GitHub
Tools & IDEs: Jupyter Notebook, Visual Studio Code, SQL Server Management Studio (SSMS), Excel

RELEVANT EXPRIENCE

Data Analyst Intern
Internship Studio
Duration: [Month Year – Month Year] (*e.g., August 2024 – September 2024*)

PROFILE SUMMARY

- 1.Completed a Data Analyst internship, gaining hands-on experience in data cleaning, preprocessing, and visualization using Python, SQL, Excel, and Power BI.
- 2.Developed interactive dashboards and reports in Power BI and Excel to present business insights effectively.
- 3.Performed exploratory data analysis (EDA) using Python libraries (pandas, NumPy, matplotlib, seaborn) to identify trends and patterns.
- 4.Designed and optimized SQL queries for data extraction, transformation, and reporting, improving analysis efficiency.
- 5.Collaborated with team members to deliver data-driven insights that supported decision-making and reporting.

PROJECTS

1) Sales Data Analysis & Reporting – Retail Chain

Analyzed sales data to identify trends, customer behavior, and product performance. Built interactive dashboards to support inventory management and improve business decisions.
Technologies & Tools: Python (pandas, NumPy, matplotlib, seaborn), SQL, Excel, Power BI

Responsibilities:

- Gathered and analyzed sales data from multiple stores and product categories.
- Cleaned, transformed, and preprocessed raw data to ensure accuracy and consistency.
- Performed exploratory data analysis (EDA) to identify trends, patterns, and anomalies.
- Developed interactive dashboards and reports in Power BI and Excel to visualize sales performance, revenue, and product demand.
- Wrote SQL queries to extract and aggregate data for detailed reporting.
- Presented insights and recommendations to management for data-driven decision-making.

2) Customer Segmentation Analysis – Retail Chain

Segmented customers based on purchasing patterns to guide targeted marketing strategies and improve retention. Created dashboards and visualizations for insights.

Technologies & Tools: Python (pandas, NumPy, matplotlib, seaborn, scikit-learn), SQL, Excel, Power BI

Responsibilities:

- Collected and cleaned customer transaction data from multiple stores.
- Performed exploratory data analysis (EDA) to understand purchasing patterns, frequency, and revenue contribution.
- Applied clustering techniques (K-Means) to segment customers into meaningful groups.
- Visualized customer segments using charts and interactive dashboards in Power BI and Excel.
- Generated actionable insights to guide targeted marketing strategies and improve customer retention.
- Presented findings and recommendations to management for data-driven decision-making.

ACADEMIC PROFILE

- 1) Bachelor of Engineering (AIML) *Savitribai Phule Pune University* – Expected Graduation: 2026
- 2) Higher Secondary Certificate (HSC) *Veddharni Junior College, Yavatmal (Maharashtra State Board)* – Completed: 2022
- 3) Secondary School Certificate (SSC) *Dr. Nandurkar Vidyalaya, Yavatmal (Maharashtra State Board)* – Passed: 2020

PERSONAL DETAILS

- Date Of Birth: 09/03/2004.
- Language: English, Hindi, Marathi.
- Address: Chandore Nagar, Yavatmal, Maharashtra -445001.
