Summary

Aspiring Software Engineer skilled in **Java, Python, and C++** with expertise in **data structures, algorithms, and machine learning**. Passionate about developing innovative software solutions to empower individuals and organizations. Experienced in collaborative environments and eager to learn cutting-edge technologies.

Technical Skills

Programming Languages: Python, C++, HTML, CSS , Java

Technologies/Skills: Object-Oriented Programming (OOP), Data Structures, Algorithms, Machine Learning, Version Control (Git)

Databases : SQL

Frameworks/Libraries: NumPy, Pandas, Matplotlib

Web Technologies: HTML, CSS

Interpersonal Skills: Adaptive, Collaborative

Education

Genba Sopanrao Moze College of Engineering , **2021 - 2025**

Pune - Bachelor of Engineering in Computer Engineering, CGPA:8.10 /10

Shri Sant Tukaram Maharaj Kanista Maha Vidyalay Kinkhed (Purna) **2020 - 2021**

HSC Percentage: 81.50

H.P.S Janta Vidyalay Danapur **2018 - 2019**

SSC Percentage: 87.40

Relevant Coursework

- Data Structures
- Database Management
- Systems Programming

Projects

- **Farm Website | HTML, CSS**
 - Developed a responsive farm-themed website improving mobile usability .
 - Optimized the design for 25% faster load times.
 - Enhanced user experience through consistent styling and intuitive navigation.
- **Handwritten Text Recognition | TensorFlow, CNN, Python**
 - Collaborated on a CNN-based handwritten text recognition system achieving 95% accuracy.
 - Collaborated on pre-processing datasets and optimizing the neural network for improved recognition rates.
 - Conducted rigorous testing to ensure the model's reliability across diverse handwriting samples.
- **Face detection using Python | Python, Open-CV**
 - Developed a real-time face detection system with Python and OpenCV, achieving 90% accuracy.
 - Integrated TensorFlow for advanced facial recognition, reducing verification time by 30%.
 - Optimized the system for live scenarios, enabling efficient and accurate identity checks.

Certificates

C++ (HackerRank, 5-Star Badge): Demonstrated advanced proficiency in C++ programming and problem-solving by achieving a 5-star badge on Hacker Rank.

SQL (HackerRank, 5-Star Badge): Achieved a 3-star badge in SQL on HackerRank, showcasing expertise in database querying and management.
