☐ **Objective**

Creative and technically proficient MCA student with hands-on experience in Java, seeking to apply Java Developer in a dynamic development environment. Passionate about blending logic and creativity to build impactful applications.

☐ **Technical Skills**

- **Languages:** Core Java, PHP
 - **Frameworks:** JDBC, Servlets, JSP
 - **Tools:** Eclipse, NetBeans, Git
 - **Concepts:** OOP, Multithreading, Exception Handling, Collections Framework
-

☐ **Education**

Master of Computer Application (MCA)

Savitribai Phule Pune University, Pune

Expected Graduation: June 2026

☐ **Projects**

Project Title : NSS Project

Web-Based Application for National Service Scheme Technologies used: PHP, MySQL, HTML, CSS

Developed a dynamic web application to streamline the management and reporting of activities conducted under the National Service Scheme (NSS). The system allows administrators to create events, manage volunteer registrations, track participation, and generate real-time reports. Integrated secure login functionality and user role management to ensure data integrity. Designed intuitive dashboards for both students and coordinators to monitor service hours and event progress. The project enhanced organizational transparency and simplified record-keeping for NSS coordinators

☐ **Soft Skills**

- Problem-solving mindset
- Strong communication and teamwork
- Creative thinker with a passion for innovation
