

OMKAR SAMPAT KAPALE

Pune, Maharashtra | omkarkapale383@gmail.com | +91 73786 21125 | [LinkedIn](#)

PROFESSIONAL SUMMARY

Detail-oriented Flutter Developer with a Bachelor's in IT, skilled in building robust applications using Flutter and Dart. Experienced in Firebase, API integration, and problem-solving, with a strong focus on collaboration and continuous learning in software development.

EDUCATION

- **SSC** (Maharashtra State Board) - 79.00 %
- **HSC** (Maharashtra State Board) - 91.50 %
- **Bachelor of Engineering**, Information Technology Engineering - Avg. CGPA - 7.89/10
Savitribai Phule Pune University
(July 2021 - May 2025)

TECHNICAL SKILLS

- **Programming Languages:** Dart, C++
- **Frameworks & Tools:** Flutter, Firebase
- **API Integration:** REST API binding
- **State Management:** GetX, Provider
- **Version Control:** Git, GitHub, GitLab
- **Platforms:** Android, VS Code
- **Databases:** MySQL, SQLite

PROJECTS

ProgStreak – Handset for Hands-on Coding

Tech Stack: Flutter, Dart, Firebase, RapidAPI, GetX, Gemini AI API

Description:

Developed a mobile app to foster consistent coding habits and real-time collaboration with four key modules:

- Code-sharing Messenger with group chat and daily streak tracking
- AI-based code assistant using Gemini API
- Real-time multi-language compiler
- Notes section for structured code storage

Key Outcome:

Boosted user engagement through AI integration and consistent coding workflows

Organization Management System – Hostel Management

Tech Stack: Flutter, Dart, Firebase Firestore, Firebase Storage, Firebase Auth, SQLite

Description:

Built a hostel app for managing attendance, daily notices, and performance tracking with distinct student and admin views:

- Real-time attendance and announcement system
- Performance tracking and role-based access
- Offline data support via SQLite

Key Outcome:

Improved hostel operations and communication efficiency

To-Do List Application

Tech Stack: Flutter, Dart, Firebase, REST API

Description:

Created a dynamic task manager app with real-time sync and productivity features:

- Live updates via Firebase
- Task categorization, priority, and status updates
- REST API integration for smooth backend interaction

Key Outcome:

Enabled effective daily task management and time organization

Quiz App

Tech Stack: Flutter, Dart, Firebase

Description:

Designed a quiz app with topic-based quizzes and gamified features:

- Timed questions, randomized sets, and score tracking
- Firebase-based real-time sync and result storage
- Modular design for easy expansion

Key Outcome:

Promoted engaging and interactive learning through quizzes

LANGUAGES

- English
- Marathi
- Hindi

SOFT SKILLS

- Communication Skill
- Team Collaboration
- Time Management
- Leadership

HOBBIES

- Playing cricket – promoting teamwork, focus, and strategy
- Reading books – especially on spiritual, history, and self-improvement
- Exploring historical places – enjoying learning about the past and different cultures
