OBJECTIVE

I aim to secure a role where I can apply my analytical and technical skills to drive organizational success while enhancing my expertise. My goal is to work as an engineer or in a related position, contributing to innovative projects, collaborating with teams, and embracing challenging opportunities for growth.

SKILLS AND INTERESTS

Programming Languages	Java, JavaScript, C++, C
Frontend Technologies	HTML5, CSS3, React.js(Service now).
Database	MySQL
Version Control System	Git, GitHub
Soft Skills	Critical thinking, Data-driven decision making, Project ownership

EDUCATION

Savitribai Phule Pune University	Graduation, June 2025
Bachelors of Engineering in Computer Science	
CGPA: 7.81	

EXPERIENCE

Web Developer Intern TechnoHacks Edutech	Dec 2023 - Jan 2024
• Created user-friendly web pages using HTML and CSS for better layout and design. • Added interactive elements to make websites more engaging and easy to use. • Checked websites on different browsers to make sure everything worked properly. • Worked with a team to finish frontend tasks on time and follow project plans. • Improved page structure and readability by organizing content with clean and consistent formatting.	

PROJECTS

1. Crop Yield Prediction System Aug 2024 – Present

Tools: Python, scikit-learn, pandas, NumPy, SQL, Matplotlib

Responsibilities:

- Developed a machine learning-based system to predict crop yield based on factors like weather, soil quality, and historical yield data.
- Designed an interactive interface for users to input data and receive crop yield predictions.
- Implemented Random Forest and Linear Regression algorithms to build predictive models.

2.Portfolio Website:

Tools: HTML, CSS, JavaScript

Responsibilities:

- Developed a responsive portfolio website using HTML, CSS, and JavaScript to showcase projects and skills.
- Implemented interactive features such as smooth scrolling, navigation bar toggle, and form validation using JavaScript.
- Utilized DOM manipulation for dynamic and interactive content creation
