

SUNITHA
SENIOR PROJECT MANAGER

EMAIL: Sruthi@idolsoftconsulting.com

Contact: 614-375-4373

PROFESSIONAL COMPETENCIES

- A skillful, accomplished, results-oriented Technology professional with over **15+ years** of experience leading and contributing to large scale IT projects in matrix organization with cross-functional project teams, leading new or expanding initiatives in **large, cross-functional, or multi-company efforts**. Building strong, trusted relationships throughout organizations, from executive level to individual contributors.
- Wide Techno-Functional and project management background, experienced at functioning strategically with business leaders to transform business needs into technology results.
- Extensive experience in all aspects of Project management (**PMBOK**) and system development life cycle (**SDLC**) using Clarity for both **Agile Scrum, Waterfall** and **Hybrid** methodologies in **Matrix, Functional** and **Direct Line** environments.
- Proficiency in supporting client with requirements gathering, analysis and design, project planning, project execution, project documentation, change management and quality assurance
- Extensive Experience in **Cross-Functional Project leadership**, with all project stages including Project **Conceptualization, Initiation, Project Planning, Project coordination, Project estimation, Risk Management**, Requirements determination, Gap analysis, Business process reengineering, Issue resolution, Configuration, Testing, Training, Go-live assistance and Post implementation support.
- Experience working in the domains of **Healthcare, Telecom, Pharmaceuticals, Oil and Gas, Health Care systems, and Utility**.
- Vast experience in **PM documentation & Reports** as per need, **SRS, BRD, FS** and other relevant artifacts.
- Vast Experience in **As-is To-be** processes **GAP Analysis**. Expert in **Feasibility studies, Risk Analysis**.
- Associated in the full **STLC** and has been experienced in all phases of testing
- Managed Cross-Functional, Multi-Cultural teams, Matrix based projects involving Architects, Business Analysts, **Project Managers, Project Coordinators, Financial Controllers, Cross-Functional/Business SMEs, Developers, Testers/QA, DBA, Infrastructure, IT Security and Release Management Teams**.
- Skilled at managing collaborations, managing programs/projects, creating new business opportunities and building innovative solutions by integrating technology and business processes, thus providing exceptional client services
- Experienced in **Data Migration, Data Loads, SAP BI and BW, Data Conversions, building Conversion Logic, Validation Methods, Error Handling Methods**
- **Involved in Testing Types FUT, ITC, Performance Testing, Load Test, Smoke Test**
- **Created Test Scripts, Test Cases, Test Scenarios**
- **Extensive All Life Cycle Management (ALM), HPQC, JIRA, RTC, RQM**
- Involved in **Data Modeling, Legacy Data migration, Data integration**, with Oracle DB and MS SQL Servers and **Data Mining and Data Analytics, Data Analysis**
- Involved in **Data Modeling, Legacy Data migration, Data integration**
- Knowledgeable in using Process Improvement Techniques which contributes to better organizational performance, building effective teams, solving problems, improving

implementation time frames, and lowering overall cost through aligning technical resources with project objectives.

- Ability to multitask for various projects, **organizes meetings**, update project schedules and deadlines, and create work flow procedures. Build Relationship with business and other stakeholders for effective communications for risk and issues to monitor the progress of the project.

EDUCATION: MBA HR

CERTIFICATIONS: Success Factors – Employee Central

TECHNICAL SKILL SET:

Database Environments, ETL, Integration and Web services	Oracle, Microsoft Access, SAP(BODI), SAP HANA, SAP (BW), Web services
Reporting and Visualization Tools	Crystal Reports, Business Objects, SAP ADHOC Reports, Custom Reports
Agile- Scrum and Testing Tools	HP-ALM, HP QC, JIRA, Mercury Test Director, Rational ClearQuest, Rational Test Manager,
Business Applications	MS Office 2003, OpenOffice.org
Data Modeling and Prototyping tools	Deloitte EVD (Enterprise Value Deliverable) MS Visio, Rational Software Modeler, Deloitte Industry Print and SAP ARIS and Open Data Modeling Sources
Requirement management	BPPL Business Process Procedure List, MS Silverlight
Methodologies	SDLC, ASAP, Agile- Scrum, Agile Methodologies
Project and Content Management	MS Office suite, MS Project, Share Point 2007, 2010, 2013, e-Room, Solution Manager
Internet & Mailing Services	MS Outlook, IBM Lotus Notes, Mail Server, Outlook Express, Red box
Network	CISCO
ERP	ECC 6.0, ECC 5.0, SAP 4.7 and 4.6C
SAP Modules	SAP HCM, Success Factors, Multi Resource Scheduling ,ABAP, PS, FI/CO,PI
Operating Systems	Windows 2003 Server, Windows NT 4.0 Server, Windows NT 4.0 Workstation, UNIX 5.0.4, Linux
Programming Language	ABAP, SQL

PROFESSIONAL EXPERIENCE

CLIENT: British Petroleum

LOCATION: Houston TX

DURATION: May 17 to Till Date

ROLE: SR. PROJECT MANAGER

PROJECT OBJECTIVES:

Handle a multimillion project aimed to migrate the client Reporting data from On- Premise to Cloud Amazon Web services using Informatica ETL tool

- **Extract, Transform and Load** the reporting data using Informatica stored procedures, complex, logical mapping, varied granularity from source data base structures to source structures
- Handle complex report creation out of **Enterprise Data Warehouse** using SAP Business Objects
- Introduce Data Visualization tools like Microsoft **Power BI** and **Tableau** to internal and external teams.

RESPONSIBILITIES:

- Understand Client requirements, conduct day to day meetings, mobilizing the resources
- Prepare detailed project plan with the Work break structures, time lines, track the progress of the project.
- Monitor and regular follow-up on development tasks and activities, with the team
- Lead the stake holder meetings with client counter -part and Business Analysts and Data Analysts
- Create Daily, weekly, Monthly Reports, on the progress of the projects and walk the client managers, through the progress.
- Creating dashboards, graphs and charts with the project status and progress.
- Executing the project plan as per Project Management guide lines, with in the specified time lines
- Monitor and track the progress on Functional Unit testing, Integration Testing ,User Acceptance Testing and System testing
- Track POC (proof of concepts) and Pilot projects
- Handled multimillion projects cost estimates & Cost reduction strategy, Resource planning for multiple tracks
- Interact with BA/Das to understand the business requirements
- Cost mitigation/reduction strategy
- Understand existing client technology, architecture and data sources
- Worked closely with Developers, Application managers, Architects
- Worked in cutting edge technology and agile environment, addressing fast paced business requirement
- BDD extensions review and RICEFW creation in TFS **Team Foundation System**

Environment: Informatica ETL, Informatica PowerCenter 10.1.1, Amazon Web Services Cloud, SAP BO, Microsoft TFS, MS-Office, MS-Project 2010, SharePoint, SAP Web Intelligence, SQL, Sybase Database, Data Lake, Hive, Impala.

CLIENT: MEDTRONIC HEALTHCARE

LOCATION: NORTH HAVEN CT

DURATION: MARCH 16 to APRIL 17

ROLE: SR. PROJECT MANAGER

PROJECT OBJECTIVES:

- Objective was to migrate the Analytics data from the legacy system to BO HANA
- Replicate, Merge, compile reports and create in the SAP Webi environment
- Streamline analytics, Reports and recreate global reports in the new environment
