EDUCATION

Genba Sopanrao Moze College of Engineering

Bachelor of Engineering in Computer Engineering

- CGPA: 7.68 / 10.0

Pune, India

Expected May 2026

Pimpri Chinchwad College of Engineering

Diploma in Internet of Things (IoT)

- CGPA: 8.36 / 10.0

Pune, India

Completed 2023

S.M.V. High School

Secondary School Certificate (SSC) - 10th Std

- Percentage: 83.40%

Satara, India

Completed 2020

EXPERIENCE

Pegasus Technologies (MindScripts)

Java Developer Intern

- Selected for an intensive internship focused on Full Stack Java Development and enterprise software architecture.
- Developing scalable backend systems using Core Java, J2EE, and MySQL to solve real-world business problems.
- Collaborating with senior developers to debug complex codebases and implement OOP principles.
- Participating in daily stand-ups and code reviews to ensure industry-standard coding practices.

Pune, India

Jan 2026 – Present

Scalfull Technologies

Software Developer Intern

- Worked on full-stack web development tasks, contributing to the design and implementation of client-facing features.
- Optimized frontend components to improve website performance and user experience (UX).
- Assisted in database management and API integration, ensuring seamless data flow between server and client.

Pune, India

June 2024 – Aug 2024

GirlScript Summer of Code (GSSoC '25)

Open Source Contributor

- Selected as a contributor for one of India's largest open-source programs, collaborating with a global developer community.
- Contributed to web development repositories by resolving bugs, optimizing frontend logic, and merging pull requests.
- Improved documentation and code quality, demonstrating proficiency in Git/GitHub version control workflows.

Remote

May 2025 – Aug 2025

PROJECTS

Mock AI Interview Platform | *Java Full Stack, React, MySQL, AI Integration*

Oct 2025 – Present

- Developing a comprehensive interview preparation platform designed to simulate technical interviews for students.
- Engineered the backend using Java and Spring Boot to handle user data, question banks, and result processing.
- Integrated AI-based logic to analyze user answers and provide real-time feedback on technical accuracy.
- Designed a responsive user interface using React.js to ensure a seamless experience across devices.

Travel Booking Platform | *MongoDB, Express.js, React.js, Node.js (MERN)*

Personal Project

- Developed a full-stack tourism web application allowing users to browse destinations, view itineraries, and book packages.
- Built robust RESTful APIs using Node.js and Express to handle booking requests and user data management.
- Implemented secure user authentication and authorization using JSON Web Tokens (JWT) and bcrypt.
- Designed a dynamic frontend with React.js and Redux/Context API for efficient global state management.

TECHNICAL SKILLS

Languages: Java (Core & Advanced), JavaScript, SQL, C++, HTML/CSS

Frameworks/Libraries: React.js, Node.js, Express.js, Bootstrap

Tools: Git, GitHub, VS Code, Eclipse, Postman, MySQL Workbench

Core Concepts: OOP, Data Structures (DSA), DBMS, SDLC
