OBJECTIVE

Motivated and detail-oriented Computer Engineering student at GSMCOE, Pune, with a strong foundation in programming, data analysis, and machine learning. Looking for an opportunity to contribute technical skills and grow in a collaborative team environment.

EDUCATION

B.E. in Computer Engineering, Genba Sopanrao Moze College of Engineering. Dec 2021- Present
Pune University SGPA: 8.20

HSC – Science, Sadhana Jr. College of Science, Gadhinglaj. Jun 2019- Jul 2021
Percentage: 90%

SSC, Sadhana Highschool, Gadhinglaj. Jun 2017– Mar 2019
Percentage: 91.20%

SKILLS

Programming Languages	C, C++, Python
Familiar With	Java, MySQL, Excel
Database	MySQL (basic)
Operating Systems	Windows, Ubuntu (basic exposure)
Languages	English, Hindi, Marathi

INTERNSHIP

Online Internship in Data Science Jan 2024- Feb 2024
Company Name *Oasis Infobyte, Pune*

- Gained hands-on experience in machine learning and real-world data analysis using Python.

PROJECTS

Deep Learning Based Early Depression Detection Using Social Media (Final Year Project)
Developed a web-based system to detect early signs of depression from social media posts using deep learning.

- Implemented an RNN-based text classification model to analyze user-generated content.
- Designed and integrated the application using Java in the Eclipse IDE and deployed it on Apache Tomcat Server.
- The privacy of user data and ethical considerations in mental health analysis were emphasized.

Unemployment Analysis Rate

- Conducted an analysis of unemployment trends and developed a predictive model to forecast unemployment rates.
- Analyzed key factors affecting unemployment using historical data and demographic information. ([Try it here!](#))

COURSES

- C Programming (Disha Computer Institute, Pune) – 100/100
- C++ Programming (Disha Computer Institute, Pune) – 100/100
