

SAMRUDDHI MAGDUM

SOFTWARE ENGINEER INTERN

Aspiring Software Engineer Intern with strong foundations in Python, Machine Learning, and Data Structures. Experienced in developing AI-driven projects and web applications using Flask, TensorFlow, and SQL. Eager to apply problem-solving and programming skills to contribute to impactful software development projects.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL

Frameworks & Libraries: Flask, TensorFlow, Keras, PyTorch

Web Technologies: HTML, CSS, JavaScript

Tools: Git, Jupyter Notebook, VS Code, Power BI, Excel (Advanced)

Soft Skills: Problem-solving, teamwork, communication, adaptability

EDUCATION

B.E in Artificial Intelligence and Machine Learning – GSMCOE (2026)

CGPA: 8.12 (TE)

HSC: 64.33%

SSC: 83%

PROJECTS

- Leaf Disease Detection Flask App – Built a deep learning model using TensorFlow/Keras to identify plant leaf diseases and deployed it via Flask web application.
- Phishing Domain Detection – Implemented a machine learning classifier to detect phishing websites using extracted domain features.
- Business Insights 360° Dashboard (Power BI) – Created an interactive dashboard integrating Finance, Sales, Marketing, and Supply Chain data.
- Atliq Hardware Report (Excel Project) – Designed an Excel dashboard with PivotTables, DAX, and conditional formatting to analyze sales performance.
