Objective

Detail-oriented Software Testing enthusiast with hands-on experience in Manual Testing, Selenium Automation, and API Testing using Java. Skilled in designing test cases, identifying defects, and building automation frameworks. Seeking an entry-level QA/Test Engineer role to deliver reliable and high-quality software solutions.

Education

Master of Computer Applications (MCA) – Currently Pursuing
Genba Sopanrao Moze College of Engineering, Pune

2024-2026

Bachelor of Science (BSc) – Zoology

Karmveer Abasaheb Alias N. M. Sonawane College, Satana
CGPA: 7.56/10

2020-2023

Skills

Languages: Java, SQL

Automation Tools: Selenium WebDriver, TestNG, JUnit

API Testing: Postman, RestAssured

Build Tools: Maven

Version Control: Git, GitHub

Testing Types: Manual, Functional, Regression, Smoke, API Testing

Methodologies: Agile, SDLC, STLC

Project Work

1. OrangeHRM - Manual Testing Project

2025

Performed end-to-end manual testing of the **OrangeHRM application**. Developed detailed test cases and scenarios for the Admin and PIM modules. Conducted functional, regression, and smoke testing to identify software defects and ensured a bug-free user experience by managing the complete defect lifecycle. **Technologies:** Manual Testing, MS Excel, Bug Tracking, Black Box Testing

2. Selenium Automation for Web Application Testing

2025

Created an automated testing framework using **Selenium WebDriver** for testing a **web application**. Automated test cases for **login functionality**, **form submissions**, and **page navigation**. Integrated the tests with **TestNG** for reporting and used **Maven** for project management.

Technologies: Java, Selenium WebDriver, TestNG, Maven

3. API Testing for E-commerce Application

2025

Performed automated **API testing** for an **e-commerce application** using **Postman** and **RestAssured**. Developed and executed test cases to verify **API responses**, validate **endpoints**, and ensure accurate data exchange.

Technologies: RestAssured, Postman, Java

4. Test Automation for Online Shopping Website

2025

Developed an automated testing framework using **Selenium WebDriver** to test an online shopping website. The system tests various functionalities, including **product search**, **adding items to cart**, and **checkout process**. Integrated with **Jenkins** for continuous integration and automated test execution.

Technologies: Java, Selenium, Jenkins, TestNG

Certifications

• **Selenium WebDriver with Java Certification** – Seven Mentor, 2026

• **Java Programming Course** – Seven Mentor, 2026

• **Manual Testing Foundation** – Youtube, 2025

• **Full Stack Java Developer** – Naresh it, 2025

Internship

Software Testing Intern – CODTECH IT Solutions

- Worked on manual and automation testing of web applications
- Created test cases and defect reports
- Executed Selenium scripts
- Collaborated with developers in Agile environment
