Web Development Intern

July 2022 – August 2022

Kolhapur, Maharashtra

- As an ambitious intern, I've delved into the world of web development, mastering HTML, CSS, JavaScript, and Bootstrap to create sleek and responsive websites.
- My internship experience has been a journey of continuous learning, where I've honed my skills through hands-on projects and collaboration with seasoned professionals.
- Keen eye for detail and a dedication to delivering high-quality work, I've contributed to the development of user-friendly interfaces and optimized website performance.
- Eager to leverage my newfound expertise and enthusiasm to make meaningful contributions to innovative projects in the tech industry. Let's connect and explore exciting opportunities together.

Projects

Housing Price Prediction | PYTHON, PANDAS, NUMPY, SCIKIT-LEARN

March 2024

- * Developed a machine learning model to predict housing prices based on various features such as location, size, and number of rooms.
- * Utilized regression techniques (e.g., Linear Regression) to enhance prediction accuracy.
- * Conducted data analysis and manipulation using pandas and NumPy to pre-process and visualize data.
- * Evaluated model performance using metrics such as RMSE and R-squared for continuous improvement.
