SUMMARY

Motivated fresher with skills in Python, MySQL, and AWS cloud computing, seeking an entry-level role to apply technical knowledge in developing scalable applications and cloud solutions. Committed to continuous learning and delivering value to the organization.

TECHINICAL SKILLS

- **Cloud Services:** AWS (EC2, RDS, IAM, S3, CloudWatch, VPC, Lambda).
- **Operating System:** Linux (CentOS, Ubuntu)
- **Monitoring:** CloudWatch
- **Programming:** Python
- **Databases:** MySQL, SQL.
- **Tools:** Git, GitHub, VS Code.

PROJECTS

Crop Recommendation and Worm Detection

- Developed a Windows-based crop recommendation and worm detection system using Python.
- Applied PyTorch, TensorFlow, and OpenCV for soil analysis and image-based pest detection.
- Compared machine learning models (SVM, Random Forest, Decision Tree) for performance evaluation.
- Analyzed soil parameters (pH, temperature) to suggest optimal crops and detect worms/pests from trained datasets.

INTERNSHIP

Python Developer Intern | Technohacks Solutions Pvt. Ltd.

- Completed a one-month Python development internship at Technohacks Solutions, creating utilities like a calculator, password generator, and temperature converter.
- Gained practical experience in Python programming, problem-solving, and building real-world software solutions.

EDUCATION

Bachelor of Technology in Information Technology

Genba Sopanroa Moze Collage of Engineering

Pune, India

June 2022 - July 2025
