Education

State Board of Maharashtra	2019- 76%
Higher Secondary Board of Maharashtra	2021- 73%
Bachelors of Engineering in Computer Science Savitribai Phule Pune University	2025- 7.3 gpa

Professional Summary

Detail-oriented and highly motivated Computer Engineering student with hands-on experience in developing scalable web applications using Java, Spring Boot, and the MERN stack. Proficient in building secure, RESTful APIs and dynamic front-ends with React. Skilled in Docker, Spring Security, JWT, and OAuth2. Strong foundation in backend logic, authentication systems, database integration, and deployment strategies.

Technical Skills

Languages & Frameworks: Java, Python, Spring Boot, Spring Security, OAuth2, JWT, Hibernate, JDBC, HTML5, CSS3, JavaScript, Thymeleaf

Web Development: React.js, Node.js, Express.js, REST APIs

Databases: MongoDB, Supabase, MySQL, SQL

Tools & Platforms: Docker, Git, GitHub, Vercel, Postman

Concepts: Object-Oriented Programming, Data Structures, Agile Methodologies, Authentication & Authorization

Professional Experience

1. Trainee Software Developer Intern – The Kiran Academy
Pune, India | June 2024 – Jan 2025
 - Developed an Inventory Management System using Java, Spring Boot, and JDBC with a responsive front-end in HTML, CSS, and JavaScript.
 - Built RESTful APIs for CRUD operations and secured backend endpoints using Spring Security and JWT.
 - Participated in code reviews, sprint planning, and Agile collaboration with the

development team.

- Gained practical experience with Git, debugging tools, and performance optimization.

2. MERN Stack Intern – Pregrad Edu.

Pune, India | Aug 2023 – Nov 2023

- Worked on full-stack applications using the MERN stack: React.js for UI, Node.js and Express for APIs, and MongoDB for data storage.
- Built dynamic UIs and connected frontend to backend with Axios and REST APIs.
- Followed Agile principles in a collaborative team environment and contributed to GitHub repositories.

Projects

1. RealTime Job Portal

Jan 2025 – Apr 2025

Tech Stack: Supabase, React.js, Tailwind CSS, Clerk, ShadCN, API Integration

- Built a real-time job portal web app with secure user authentication via Clerk and data storage in Supabase.
- Integrated third-party APIs to dynamically fetch and display job listings.
- Used ShadCN for reusable UI components and managed global state for smooth interactivity.

2. Admin-User Portfolio System

Ongoing

Tech Stack: Spring Boot, Java, Thymeleaf, Spring Security, JWT, React

- Developed an admin-user access system where Admins can manage user privileges, project visibility, and receive security alerts.
- Integrated JWT-based secure login with Spring Security and created role-based access control (RBAC).
- Implemented email alerts on unauthorized login attempts and a responsive Thymeleaf-based admin dashboard

Certifications

- Full Stack Java Development – The Kiran Academy

- MERN Stack Development – Pregrad Ed
