

Shreyash Ashok Musmade

Pune, Maharashtra. (411057) | +91 8010163549 | shreyashmusmade2004@gmail.com | [Linkedin.com](#) | [Git Hub](#) | [Kaggle](#)

Profile Summary

Oriented and analytical Data Analyst skilled in data visualization, statistical analysis, and predictive modeling. Proficient in Python, SQL, Power BI, and Excel, with a strong ability to transform data into actionable insights. Published a research paper titled "*Student Management System Using Power BI*" in an international journal, demonstrating expertise in dashboard development and business intelligence. As an *NSS Coordinator*, exhibited leadership, teamwork, and project management skills through organizing social and community initiatives. Passionate about leveraging data to support strategic decision-making and business growth.

Education

SSC | MARCH 2020 | SHRI CHHATRAPATI SHIVAJI SECONDARY & HIGHER SECONDARY SCHOOL, DEOLALI PRAVARA, MAHARASHTRA

HSC | MARCH 2022 | SHRI CHHATRAPATI SHIVAJI JUNIOR COLLAGE, DEOLALI PRAVARA, MAHARASHTRA

BE AIML | PERSUING | GENBA SOPANRAO MOZE COLLAGE OF ENGINEERING, BALEWADI, PUNE-411045 MAHARASHTRA

Skills

Languages: Python, SQL, Business Intelligence, Gen AI, AWS

Technologies & Frameworks: Power BI, Excel, Tableau, DAX, Tensorflow, Scikit-Learn, LangChain, pydantic, LLM

Projects

Coffee Shop Sales Dashboard – Power BI Project

Duration: 2024

Organization: Academic / Personal Project

Summary:

Developed a Generative AI-powered research assistant using LangChain and ChatGroq (LLM) to generate structured research summaries from user queries. Integrated multiple tools for web search, Wikipedia data retrieval, and automated output saving, ensuring accurate and organized results in JSON format. Implemented robust data parsing, prompt engineering, and tool orchestration to automate the end-to-end research workflow. Successfully provided topic summaries, sources, and tools used, with outputs saved as structured text files.

Key Skills: Power BI, Data Visualization, Dashboard Design, DAX, Data Cleaning, KPIs, Charts & Filters, Excel, Data Analysis

BlinkIt Sales Dashboard – Power BI Project

Duration: 2025

Organization: Academic / Personal Project

Summary:

Developed an interactive *Blinkit Sales Dashboard* in Power BI to analyze and visualize sales performance across various outlet types, sizes, and locations. Designed KPIs to track total sales, average sales, number of items, and customer ratings. Utilized Power Query for data cleaning and transformation, and implemented DAX measures for dynamic calculations. Created visual insights into item type performance, outlet establishment trends, and regional comparisons to support business growth and decision-making.

Key Skills: Power BI, Data Visualization, DAX, Power Query, Data Cleaning, Dashboard Design, KPIs, Excel, Data Analysis

E-commerce Sales Analysis Dashboard – Excel Project

Duration: 2024

Organization: Academic / Personal Project

Summary:

Designed and developed a comprehensive and interactive E-commerce Sales Analysis Dashboard in Microsoft Excel to monitor and analyze business performance. The dashboard provides a high-level overview of critical Key Performance Indicators (KPIs) such as total sales, profit, profit margin, quantity sold, and number of orders, each featuring Year-over-Year (YOY) growth metrics. It offers deep-dive analyses through various visualizations, including monthly sales and profit trends, category-wise profit contribution, sales share by category, geographical sales distribution by state, and a breakdown of the top 5 performing sub-categories. Interactive slicers for year, region, and customer segment enable dynamic filtering, allowing for granular and targeted data exploration to drive strategic decision-making.

Key Skills: Excel, Dashboard Design, Data Visualization, KPI Analysis, Sales Reporting, Data Analysis, Interactive Slicers, Charts & Graphs.

Key Achievement

- **Research Paper:** [Generative AI in Healthcare](#)
- **Research Paper:** [Student Management System using Power BI](#)

Certification

- Certificate of "Data Fundamentals" issued by IBM SkillsBuild.
- Certificate of "Microsoft Excel- Learn MS Excel for Data Analysis" By Udemy.
- Certificate of "Power BI DAX Mastery: Advance Formulas and Data Analysis" By Udemy.
- Certificate of "Database with Python: MySQL, SQLite & MongoDB with Python" By Udemy.
- Project Certificate of "Introduction to Microsoft Excel" By Coursera Project Network.
- Certificate of "What is Generative AI" By LinkedIn Learning.
